## How to read this manual

- The panels shown in this guide are examples used to provide clear explanations of the operations. For this reason, they may be different from the actual panels.
- In operation procedures, bracket shape indicates the item you should control.
  - [ ]: indicates the selected items or menu.
  - < >: indicates the name of panel buttons.

## Precautions

### ⚠ WARNING

#### ■ To prevent injury or fire, take the following precautions:

- To prevent a short circuit, never put or leave any metallic objects (such as coins or metal tools) inside the unit.
- Do not watch or fix your eyes on the unit's display when you are driving for any extended period.
- If you experience problems during installation, consult your JVC dealer.

#### ■ Precautions on using this unit

- When you purchase optional accessories, check with your JVC dealer to make sure that they work with your model and in your area.
- The Radio Data System or Radio Broadcast Data System feature won't work where the service is not supported by any broadcasting station.

#### ■ Protecting the monitor

- To protect the monitor from damage, do not operate the monitor using a ballpoint pen or similar tool with the sharp tip.

# Installation

## Before installation

Before installation of this unit, please note the following precautions.

### ▲WARNINGS

- If you connect the ignition wire (red) to the negative ground point, you may cause a short circuit, that in turn may start a fire. Always connect those wires to the power source running through the fuse box.
- Do not cut out the fuse from the ignition wire (red). The power supply must be connected to the wires via the fuse.

### ☞ NOTE

- Mounting and wiring this product requires skills and experience. For best safety, leave the mounting and wiring work to professionals.
- Make sure to ground the unit to a negative 12V DC power supply.
- Do not use your own screws. Use only the screws provided. If you use the wrong screws, you could damage the unit.
- If your vessel ignition does not have an ACC position, connect the ignition wires to a power source that can be turned on and off with the ignition key. If you connect the ignition wire to a power source with a constant voltage supply, such as with battery wires, the battery may be drained.
- If the console has a lid, make sure to install the unit so that the front panel will not hit the lid when closing and opening.
- If the fuse blows, first make sure the wires aren't touching to cause a short circuit, then replace the old fuse with one with the same rating.
- Insulate unconnected wires with vinyl tape or other similar material. To prevent a short circuit, do not remove the caps on the ends of the unconnected wires or the terminals.
- Secure the wires with cable clamps and wrap vinyl tape around the wires that comes into contact with metal parts to protect the wires and to prevent short circuit.
- Connect the speaker wires correctly to the terminals to which they correspond. The unit may be damaged or fail to work if you share the  $\ominus$  wires or ground them to any metal part in the vessel.
- When only two speakers are being connected to the system, connect the connectors either to both the front output terminals or to both the rear output terminals (do not mix front and rear). For example, if you connect the  $\oplus$  connector of the left speaker to a front output terminal, do not connect the  $\ominus$  connector to a rear output terminal.

- After the unit is installed, check whether the signal lamps, wipers, etc. on the vessel are working properly.
- Reception may drop if there are metal objects near the Bluetooth antenna.

## ■ Installation procedure

- To prevent a short circuit, remove the key from the ignition and disconnect the  $\ominus$  terminal of the battery.
- Make the proper input and output wire connections for each unit.
- Connect the wire on the wiring harness.
- Connect the wiring harness wires in the following order; ground, battery, ignition.
- Connect the wiring harness connector to the unit.
- Install the unit in your vessel.
- Reconnect the  $\ominus$  terminal of the battery.

## Installation

### Installing the unit

#### ■ Mounting (Using Mounting Plate)

To mount the unit, you will need to find a flat surface with adequate clearance behind it that provides enough clearance for the unit and all its necessary wiring.

- 1) Once you have determined a mounting location, you will need to cut a circular hole 77 mm (3inch) in diameter.
- 2) After the hole is cut slide the unit and wiring through the hole.
- 3) Slide the mounting plate (accessory ②) over the backside of the unit and secure with the supplied screws (accessory ④).
- 4) Press on the trim plate (accessory ①) to the front side of the unit.
- 5) Plug in all wiring harnesses and cables. Refer to the wiring diagram for wire harness connection types.

#### ■ Removing the trim plate

- 1) Use the extraction key (accessory ⑧) to lever out the four tabs (two on the left part, two on the right part).

- 2) Pull the trim plate forward.

#### ■ Mounting (Using U Bracket)

To mount the unit, you will need to find a flat surface with adequate clearance behind it that provides enough clearance for the unit and all its necessary wiring.

- 1) Attach the screw with nut (accessory ⑥) to the back of the unit.
- 2) Once you have determined a mounting location, you will need to cut a circular hole 77 mm (3inch) in diameter.
- 3) After the hole is cut slide the unit and wiring through the hole.
- 4) Take the bracket (accessory ③) and slide over the two studs on the back of the unit. Tighten down with supplied nuts (accessory ⑤).
- 5) Press on the trim plate (accessory ①) to the front side of the unit.
- 6) Plug in all wiring harnesses and cables. Refer to the wiring diagram for wire harness connection types.

## Maintenance

### ■ Cleaning the Unit

If the front panel of this unit is stained, wipe it with a dry soft cloth such as a silicon cloth. If the front panel is stained badly, wipe the stain off with a cloth moistened with neutral cleaner, then wipe it again with a clean soft dry cloth.

### ⚠ CAUTION

- Applying spray cleaner directly to the unit may affect its mechanical parts. Wiping the front panel with a hard cloth or using a volatile liquid such as thinner or alcohol may scratch the surface or erase screened print.

## More information

### ■ Usable USB device

This unit can play MP3/ WMA/ FLAC files stored in a USB mass storage class device.

- File system: FAT32
- This unit can recognize a total of 999 files and 255 folders (a maximum of 999 files per folder).
- The maximum number of characters:
  - Folder names : 24 characters
  - File names : 24 characters
  - Tag : 30 (Title) /15 (Artist/ Album) characters

### ☞ NOTE

- When the USB device is connected to this unit, it can be charged through the USB cable.
- Install the USB device in the place where it will not affect safe driving.
- You cannot connect a USB device via a USB hub and Multi Card Reader.
- Take backups of the audio files used with this unit. The files may be erased depending on the operating conditions of the USB device.  
We shall have no compensation for any damage arising from any erased data.
- No USB device comes with this unit. You need to purchase a commercially available USB device.
- Cap the USB terminal whenever not using.

### ■ Playable Audio files

Audio format	Bit rate	Sampling frequency
MP3 (.mp3)	32 – 384kbps, VBR	16 – 48 kHz
WMA (.wma)	16 – 320kbps	16 – 48 kHz
FLAC (flac)	–	8 – 48 kHz

• This unit can show ID3 Tag Version 1.0/1.1/2.2/2.3/2.4 (for MP3).

• The maximum number of characters:

- Tag : 30 (Title) /15 (Artist/ Album) characters

### ☞ NOTE

- WMA of which is covered with DRM cannot be played.
- Although the audio files are complied with the standards listed above, the play may be impossible depending on the types or conditions of media or device.

### Troubleshooting

What appears to be trouble is not always serious. Check the following points before calling a service center.

- For operations with the external components, refer also to the instructions supplied with the adapters used for the connections (as well as the instructions supplied with the external components).

#### ■ General

##### No sound comes out of the speakers.

- Adjust the volume to the optimum level.
- Check the cords and connections.

##### The remote controller does not work.

- Replace the battery.

#### ■ USB

##### While playing a track, sound is sometimes interrupted.

- The tracks are not properly copied into the USB device. Copy the tracks again, and try again.

#### ■ iPod/iPhone

##### No sound comes out of the speakers.

- Disconnect the iPod/iPhone, then connect it again.
- Select another source, then reselect "iPod".

##### The iPod/iPhone does not turn on or does not work.

- Check the connecting cable and its connection.
- Update the firmware version of iPod/iPhone.
- Charge the battery of iPod/iPhone.
- Reset the iPod/iPhone.

##### Sound is distorted.

- Deactivate the equalizer either on this unit or the iPod/iPhone.

##### A lot of noise is generated.

- Turn off (uncheck) "VoiceOver" on the iPod/iPhone. For details, visit <<http://www.apple.com>>.

#### ■ Tuner

##### Automatic presetting does not work.

- Store stations manually. (P.8)

##### Static noise while listening to the radio.

- Connect the antenna firmly.

### ■ Bluetooth

##### Phone sound quality is poor.

- Reduce the distance between the unit and the Bluetooth device.

##### The sound is interrupted or skipped while using a Bluetooth audio player.

- Reduce the distance between the unit and the Bluetooth audio player.
- Turn off, then turn on the unit. (When the sound is not yet restored) connect the player again.

##### The connected audio player cannot be controlled.

- Check whether the connected audio player supports AVRCP (Audio/Video Remote Control Profile).

##### The Bluetooth device does not detect the unit.

- Search from the Bluetooth device again.

##### The unit does not pair with the Bluetooth device.

- Turn off, then turn on the Bluetooth device.
- Disconnect the Bluetooth device currently connected and then register the new device.

##### Speaker Impedance

: 2 – 8 Ω

## FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference, and
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

- 1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada.

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."
